## MONDAY'S RACES
### A Large Crowd Turned Out to Witness the Speed Contests.

How July 4th and 5th was Celebrated in Sonoma.

July 4th and 5th was cele brated throughout the land and good old Sonoma was none behind the rest of the nation. Saturday evening visitors and relatives began flocking to the valley and early Sunday our hotels and resorts were packed to fullest capacity and many were unable to find accomodations.

Sunday was spent enjoying the pleasures of our different hot springs, resorts and shady nooks and an enjoyable time was had at all of them. Innumerable were the amusements and the day passed entirely to quickly for all.

Sunday automobiles and rigs seemed to vie with each other for right of way over our highways as they journeyed from place to place. Monday rolled around a bright and beautiful day and during its early forenoon the crowds began to congregated around on our streets preparatory for the hour of the races.

Livery rigs were unobtainable and at a premium, and our auto drivers were rushing here and there with large parties and in passing left an echo of song, laughter and a general good time. Apparently all had a feeling of goodfellowship as there were no fights, no drunkness or rough language, all wreathed in smiles, which broadened when the famous band made its appearance on the streets and turned loose its music. And fairly good music it was too, considering that it consisted of four pieces, an accordian and three horns.

At the hour set for the call of the judge for the first race the crowd hastened to the race track and filled the Grand stand, perched on fences and others more fortunate sat in their buggies enjoying the races.

The first, a road race for a purse of $10. August Marcy drove Hard Times. Tom Millerick, Joe Dor and J. Allison Kentucky Girl. Joe Dor winning and Hard Times second. Time: 2:40, 2:51 and 3 minutes.

The free for all. Trot or pace. Purse $100 found Deroll driven by A. Schwatrz, Albert S. by T. Burton and Ring Rose by T. Knuckles on the trace. Albert S. won first and Deroll second. Time: 2:23 2:20 and 2:23 for the three heats.

The next—Trot or Pace—2:20 class caused considerable excitement and used up considerable time. The entres were: Grace McKinney, driven by Joe Ryan, Jim Chase by T. Knuckles and Ocean View by Tobin. Ocean View was either poorly driven or was outclassed for she was unable to get started right and when the race did begin was lost on the first quarter. Jim Chase evidently decided it was time to take matters in hand and getting the bit in his teeth the driver was unable to stop him. The owner seeing the trouble succeeded in stopping him on the third circle of the track near the judge's stand. The race in its several heats was finally pulled off and of course Grace McKinney won the purse, much to the satisfaction of many present because the horse is well known here and partly because she was driven by our Constable, Joe Ryan. Time 2:17 and 2:20.

In the Trot or Pace—2:30 class there were four enteries: Little Babe driven by A. Dupont, Honesty by P. Riley, Dick by T. Knuckles and Satmour Wilkes by Joe Ryan. Again Joe Ryan drove the winning horse and though crowded by Honesty was able to walk off with 1st, in the race. Time 2:25 and 2:20.

The Thoroughbred race—Half mile dash was easily won by Coney Island, A. Miller rider, who, aparently did not let the animal out to its fastest speed.

In the quarter mile dash McGovern's Two-step won the purse.

Tom Millerick rode Roan Rose to victory in the one-eight Mile Saddle Horse race.

The Sonoma Driving Club are to be congratulated upon the success of the affair and proved themselves perfectly capible of pulling off a fine bunch of races.

In conclusion we should suggest that when they hold their next race meet they will have enough attractions to consume the entire day, such as ball games, etc.

The ball given by the Womans' Improvement Club in the evening was well attended. The hall was very appropriately decorated and the music was exellent.

## School of Agriculture

Part of the equiptment of the University Farm for good work in both educational and experimental lines in a young orchard, whose value for both purposes becomes greater every year. It has been planted with the idea of having representatives of all the standard varities of dedicious fruits that flurishes in the Great Valley of California; peaches, apricots, plums, prunes, pears and early apples. Besides 15 or 18 standard varities of peaches, about 70 other varities are being tried out, with the idea of developing now ones to supplement the standard, and thus making a longer and steadier peach season. In almonds, about 12 varities are under experiment, to deter nine the possibility of increased yeild through cross-pollonizing. In time a large number of hybrids will be developed. The aim is to secure a greater regularity in the almond yeild by development of new varities. About 25 varities of walnuts have been planted, with the intention of developing trees able to resist the heat of the interior valleys, and with a tendency to resist blight. It is also planned to develop methods of pruning adapted to climatic conditions in the Great Valley. These methods will be different from those suitable elsewhere insofar as the conditions are different.

The orchard will be used to the fullest extent for demonstrations in the Horticultural work of the School of Agriculture. For pratice in pruning, investigations in the diseases of fruit trees, the study of harmful insects, spraying, etc, aswell as for the details of preparing fruit for market, an orchard is essential; and for this purpose the new orchard will be used.

## The Men's League

The Men's League presented themselves to the public in the Congregational Church last Sunday evening.

A large attendance was there to welcome them to life, every seat in the church being filled.

Space does not allow us to mention every interesting number of the program, but we must crowd over paper enough to mention the singing of the Star Spangled Banner by Mrs. Clair Hope Hyde, who, in addition to her sweet and rich voice, seemed inspired with the patriotism in which the song was written in those early days of the making of our nation and its history, and the many friends of Mrs. Hyde were more than pleased with her voice and were thrilled with the patriotism which she no doubt felt during the rendering of the song.

Mr. Duhring, in behalf of Mr. Poppe, the president, made a few remarks, paying tribute to our forefathers and the glorious Fourth of July and announced the plans and policy of the Men's League. Their intentions being to assist in the upbuilding of the community and bringing people to realize their duty toward their country, toward man and toward themselves, by a serious of lectures, entertainments, musicals and the better grades of theatricals, importing only fluent orators well versed in their topics and entertainers that will be of a benefit to the community.

Mr. Duhring had the pleasure of introducing R. L. Thompson, an attorney of Santa Rosa, and a pleasure it must have been, for from the beginning, Mr. Thompson held the audience spell bound. His address was an appropriate one to the day and was replete with knowledge and historical facts, each and every subject being rounded off in a most able manner. The life of Abe Lincoln was pictured in brief sketches from the time he worked 16 hours a day and subsisted on hog and harmony through those strenuous times when he upheld the principals of his country. We were taken to the graves of George and Martha Washington and stood there with the speaker, thrilled with sad memories for their loss and with patriotism for their noble and unselfish deeds. Again, we boarded a steamer and floated down Chesapeake Bay and finally stepped ashore at Boston and followed Mr. Thompson to and thorough history's sacred places. We saw the lantern that hung in the church which notified Paul Revere to begin his ride and tell the people of the approach of the enemy.

Through the entire lecture the orator held the attention of the audiance and demonstrated his ability to handle a subject.

In conclusion we feel safe in stating that the Men's League have started in the right line and if they always obtain such a speaker as Mr. Thompson, such singing as Mrs. Hyde and such excellent music as furnished by Mr. Hyde they will always draw a crowd and gain prestage.

## Great Demand for Literature

The whole world is becoming deeply interested in California, and inquiries are coming in increasing number for information regarding different parts of the State. With the splendid advertising that is being given the State by The California Promotion Committee, and the interest that is taken in the Pacific Coast by those who visit the Alaska-Yukon Pacific Exposition, people all over the world are having their attention attracted to California. Owing to this increased interest the demand for litsreture describing the various parts of the State is so great that it is almost impossible to supply it.

The California Promotion Committee has a most thorough method of distribution of literature, so that not a single piece goes to waste, yet the demand upon it has been so great that many countries are entirely unrepresented in its literature files. Quite a number of countries have live commercial organizations that are quick to grasp opportunities, but others do not seem to realize the importance of a constant supply of such matter.

## The Cut-off

A crew of S. P. engineers came up Wednesday and spent the day lining up the grade of the extension around north of town and giving levels for the graveling of the roadbed. A large amount of gravel has been distributed along the road and a large force of men are engaged in leveling off the the track ready for use.

The rails are all laid to the switch at the "Y" connecting the extension with the Northwestern Pacific in the Jennings track. There is some delay there awaiting a decision which road will do the work of making the "Y" connection, the S. P. or Northwestern Pacific. While awaiting the decision the S. P. track laying crew is working on the ballasting of the roadbeds as far as completed.—Press Democrat.

Wednesday we interviewed a high up official in Oakland and he says as yet no arrangements have been made to change the transfer point from Shellville to Santa Rosa. Evidently the new cut off is to be used as a transfer for passenger trains from one road to the other and eventually motor cars will be run along the route, possibly from Willits to Sacramento.

## Birthday Party

On Friday afternoon, July 2nd, Mrs. E. O. Gates, of El Verano, entertained a party of little folks in honor of the tenth birthday of her brother, Chester Briggs, of Muskegan, Mich.

The afternoon was spent in various games, among them a peanut hunt. The prize, was won by Paul Cooper, of San Francisco, and Elizabeth Weaver, of El Verano.

Ice cream and cake were served in the dining room, which was tastefully decorated by Mrs. E H. Cliff, with flags, bells and fastoons of red.

The table was made pretty by the use of paper cover, napkins and doilies in the Poinsetta pattern. The four story birthday cake with its ten flags, making the centerpiece. Bouquets of flowers and little baskets of red and green, filled with bonbons, and used as favors, completed its attractions.

After they had feasted to their hearts content the merry crowd departed, each leaving Master Chester a pretty present, as a remembrance of the birthday he had spent in California.

Those present were: Viola Bruns, Lona Clements, Elizabeth Weaver, Providence La Torres, Willie Wyatt, Paul Cooper, Milton La Torres, Marie Minkle, and Marshall Johnson.

CONTRIBUTED.

## Sonoma Selected

Milton H. Landers, an old Civil War veterian who has naturally been looking foreward to the time in the near future when the battle of life, for him will be o'er, has been searching for a place for the burial of his body.

He states that he wants to be placed away in some cemetary in California where his body will never be removed from its burial place. After looking over several places he came to Sonoma where he was informed that the Mountain Cemetery here was given to the City of Sonoma by the late Gen. Vallejo for a burying ground and could never be used for any other purpose. He has selected Mountain Cemetery as the place he wants to be buried and has given Contractor Sherer the contract to build a concrete burial vault to hold his remains when his soul shall have taken flight to that better and brighter world.

May the vault remain long unoccupied is the wish of the brave old soldier's many friends.

## Amy Barbara Lubeck

The death on Monday morning July 5th, 1909, of Mrs. Amy Barbara Lubeck, principal of the Locust Grove School at Shelleville deprived Sonoma Valley of one of its best known and most respected inhabitants. Mrs. Lubeck was upwards of eighty years of age, and resided in this valley almost sixty years. During the greater part of the time she resided here she conducted the Locust Grove School, and many middle-aged men and women throughout California were her pupils.

Mrs. Lubeck was a native of Kent, England, her maiden name being Southard. Her father paid her a visit a number of years ago and died here in 1894. Mrs. Lubeck was twice married, her first husband being a physician named Baxten, whom she married in England, and by whom she had one child, which died in infancy. Her husband died at about the same time. In 1848 she came to California, and in 1850 to Sonoma Valley. In 1851 she was married to Captain Charles William Lubeck, who died in 1890. Captain Lubeck was an importer, and among his importations in early days were lumber and houses framed and ready to put up when landed. The Locust Grove School House, still standing is in an excellent state of preservation, and is one of the buildings imported by Captain Lubeck, in one of his vessels. Mrs. Lubeck resided on the Locust Grove ranch continuously from the time of her marriage to Captain Lubeck up to the time of her death. She established the school a number of years prior to his death.

The funeral took place on Wednesday from her late residence, and the interment was in Mountain Cemetery. The exercises were held in the locust grove in front of the school, and were very impressive. The ground was carpeted with evergreens, and the casket resting on trestles placed upon it. Surrounding it, seated on chairs, were gathered the relatives, friends and neighbors of the good woman, who paid their last tribute of affection to her memory. The floral offerings were many and varied. Box after box of the most beautiful flowers and floral pieces were sent from San Francisco and placed upon the casket and finally upon the grave. Bishop Moreland, of the Episcopal Church, of which Mrs. Lubeck was a member, officiated. He was her lifelong friend. He read the burial service and delivered a noble and masterly eulogy on the life, the good deeds and noble womanhood of his departed friend. A vocal quartette with organ accompaniment, rendered sacred music during the services. Upon the conclusion of the services at the residence, the remains, accompanied by a large funeral cortege, were taken to Mountain Cemetery and there carefully and reverently laid in the grave.

Thus came to an end a very fruitful and useful life. Mrs. Lubeck was a most kind and charming woman. She had an overweening love for children, prompted and intensified no doubt, by her own little darling whom she lost. She evidently intended to love other children for the sake of her own whom she was unable to keep. She first reared and started in life the four Clayton children. Then, in 1869, came to her the seven motherless children of her sister, Mrs Landsborough, who died in Australia, all of whom received from her a mother's fondest care. Such of them as were in reach were present at the funeral. The others the broad oceans separated from their foster parent. Finally there were the four Pauli children, all of whom grew to manhood and womanhood, three of them being now happily married.

Truly a good woman has gone from among us whose loss will be widely and universally deplored.

—R. A. P.

## Berkeley Business College

We take pleasure in announcing that the management of the Berkeley Business College, one of the leading business institutions on the coast, have selected the Sonoma Valley EXPOSITOR as one of their advertising mediums, realizing that it is the only paper that reaches all of the people of Sonoma valley.

Never before in the annals of history has there been such a great demand for thoroughly trained office help in the business world. A Business College Route is not only a short route to success but, is by far the most economical in fact is the only legitimate way to "burgularize success," and we feel no hesitancy in advising our young people to take up a business course. The Berkeley Business College ranks among the foremost in the West.

In addition to giving a thorough coerse in shorthand, book-keeping, typewriting and preparatory coaching as any school anywhere. They offer a valuable course in business management which alone is worth the price of tuition. None of our young people will make a mistake in attending this business college which is located at 2191 Shattuck Ave, Berkeley, California.

## Deer Season Opens July 15

The much mooted question as to the law regarding the opening of the deer season has come to head at last. Despite the fact that the new Codes published the date of the opening of the season for August 15, as mentioned in the paper several days and which the circumstances Assistant District Attorney Hoyle held to be the law, it seems that the bill signed by Governor Gillett provides that the opening season is July 15.

Assistant District Attorney Hoyle telegraphed to Attorney General Webb and asked him for an opinion. Webb passed the buck to Secretary of the State Charles F. Curay, he being more familiar with the matters appertaining to the signing of bills. Mr Hoyle received a telegram yesterday afternoon stating that the bill signed by the governor opens the deer season from July 15 to November 1 —Press Democrat

## The Irrigation Congress

Every person in California is deeply interested in all matters pertaining to reclamation, irrigation and forestry, consequently all are interested in the coming meeting of the National Irrigation Congress, which is to convene at Spokane, Washington August 9.

The primary objects of the Congress are to save the forests, store flood water of the streams, reclaim deserts and make homes on land now desolate, and at these meetings there is always actual demonstration of the possibilities of the West in development along these lines.

California is vitally interested in the work of this Congress, and every organization in the State, as well as individuals, should aid in having a good representative from California at the Spokane meeting. The meeting held in Sacramento two years ago was well attended and its action was not only of interest but of real pratical value to the entire State. California, being the pioneer in irrigation matters, should take prominent part in all meetings of the Congress and especially in the coming one.

## Enjoy 5th in Hills

A large party of El Verano people packed baskets, hammocks and other things in rigs and journeyed to the hills on July 5th. Those present were Mr. and Mrs. E. H. Cliff and children, E. O. Gates, wife and son, D. W. Corbin, Mrs. Briggs and son, of Muskegan, Michigan, and Mr. Mrs. Weatherhead, of San Francisco.

The ladies in the party had killed the fatted calf and upon their arrival set a fine spread and the men entered into a contest to see who could eat the most. Reports differ, some say Bridges won, while others say Gates consumed more food in a half hour than either Bridges or Cliff did in the whole three hours they were eating.

In the afternoon Bridges from an over dose of good things, imagined himself Teddy Roosevelt in the jungles and hunted for bear, but some say he saw snakes.

Gates imagined himself a driver of a chariot race in the circus and the stunts he went through with a very wild horse furnished much amusement for all.

Late in the evening the party returned to El Verano, tired but satisfied with their outing.

# NATURE'S ESSENCE.

**Extracted From Forest Plants.**

Nature's laws are perfect if we obey them, but disease follows disobedience. Go straight to nature for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the black-cherry tree, the root of mandrake, stone root, queen's root, bloodroot and golden seal root, make a scientific, non-alcoholic extract of them with just the right proportions and you have Dr. Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this vegetable extract and alterative of the greatest efficiency.

Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic. The refreshing influence of this extract is like Nature's influence—the blood is purified and enriched—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated in the system. Doctor R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, Buffalo, N.Y., and a physician of large experience and practice, was the first to make up an *alterative extract* of native medicinal roots WITHOUT A PARTICLE OF ALCOHOL, which purifies the blood and tones up the stomach and the entire system in Nature's own way. The "Golden Medical Discovery" is just the tissue builder and tonic you require when recovering from a hard cold, grip, pneumonia, or from a debilitating fever. No matter how strong the constitution the stomach is apt to get "out of kilter" now and then, and in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body, and so cures liver and kidney troubles. If you take this NATURAL BLOOD PURIFIER AND NERVE TONIC you will assist your system in manufacturing each day a pint of rich, arterial blood that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which over-worked people experience is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue." Dr. Pierce's Golden Medical Discovery *cures* all blood humors as well as being a tonic that makes one vigorous, strong and forceful. Dr. Pierce's Golden Medical Discovery STANDS ALONE as the one medicine for stomach, liver and blood disorders that has the ingredients printed upon the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y., which *cures* in Nature's own way; not only does it STAND ALONE in respect to its ingredients being known, but also as the only tonic and restorative which absolutely contains *no alcohol*.

"I was taken with a severe cough, weakness in my back, a 'glimmer' over the eyes, had a bad breath, and stomach was out of order," writes H. Gaddis, of 1423 South Tacoma Avenue, Tacoma, Wash. "I felt sluggish, did not care for anything, had no life, it was almost misery to move, appetite very poor. I read Dr. Pierce's Common Sense Medical Adviser and went right away and purchased two bottles of his 'Golden Medical Discovery,' and before I had taken all of one bottle I felt better. If any doubt the truth of this testimonial they may write to me."

Pierce's Pleasant Pellets

Dr. Pierce's Pleasant Pellets cure bad, foul stomach and constipation and so *help* to cure nearly every disease of mankind. They regulate, tone up and invigorate Stomach, Liver and Bowels.

Francis J. Heney has been ousted from running for the office of district attorney by the Supreme Court's direct primary decision which held that candidates can only have one nomination and must have been registered in the nominating party and supported by two thirds of the vote of its ticket a year ago. Heney registered as a Republican last year and now has been offered the nomination by the Independent Democrats. The decision prevents his accepting anything but a Republican nomination which he can not get. Half of the local labor ticket is knocked out by the decision. Heney's only chance will be to remain out of the primaries and attempt to make the race as an independent. If he goes into the Republican primaries and is defeated he can not run independent.

One hundred and fifty millions of dollars is about the amount State Controller Nye expects will be added to the taxable property totals of the state this year. The estimate he bases on the advance report he has received from County Assessors. The increase will be most noticeable in the counties of Alameda, Los Angeles and San Francisco. Assessors must have their assessment rolls filed with the County Board of Supervisors, sitting in the capacity of Equalizers, by Monday next, except in cases where the Assessors have been given extensions of time.

### Wise Talks by the Office Boy.

I have been studying up on the different kinds of economy. Economy means different things to different folks A man will drop a nickle in the slot machine expecting, to win

a handful of cigars and economize on his cigar bill. He generally drops in 50c or more, and maybe he gets a couple of cigars, and maybe he don't. The lady of the house sends away for some "special bargain" to some catalogue house. After she receives it she often discovers the same article in this town at the same price, less the freight or express. That's hardly economy, is it?

If you want to practice REAL economy attend the Racket Store special sales which they are now having every day of nice up-to date goods at prices that can't be duplicated. Men's and boy's straw and canvas hats at half price. All suits reduced. Here's hoping. Come on in like the jockey who drove Grace McKinney. Don't mind the cheering.

**The Irritating Mississippi.**

The Mississippi is the greatest irritant in the United States. Its fickleness, conscious power and taunting eddies bring oaths to the lips of the most respectable and law abiding residents along its lower course. The greatest admirers of the river, the people who sing its praises with the most emphasis, are the ones who go off on a tangent of temper quickest when they find a new caving of river bank headed toward the newest and most expensive levee, built to protect great plantations, while just across the stream rise worthless bluffs and useless sand bars. Talk to a Mississippi river man—shanty boater, pilot, raftsman, plantation owner or city merchant—and he will brag about the river wonders. Its bigness charms him and makes him feel large and elated. Bring him around to his own experiences with it, and suddenly a shade of resentment crosses his face as he recalls a shanty boat wrecked by a cyclone, a steamboat snagged, a raft torn up in some bend, a plantation undercut and washed away or a season's trade spoiled by an overflow and crevasse.

"We love the river, damn it!" is a literal expression.—R. S. Spears in Atlantic.

**A Queer Test.**

The grocer said to the applicant:

"Your references are good. Show me your style of weighing out five pounds of sugar. There's the scales."

The applicant wreathed his face in the amiable smile all salesmen wear and weighed out the sugar with dispatch and accuracy. He put on too little sugar at first; he added gently a full half pound before the scale balanced.

"You'll do," said the grocer. "You understand the scale trick. It is plain that you learned your trade in the thorough old school way."

"Yes, sir," the other answered. "I learned in the country, and almost my first lesson was that in weighing. You must add, add, add, till the beam tips, because all that adding pleases the customer—seems to him almost like a gift. But if, on the contrary, you substract from the quantity on the scale the customer is affected in the opposite way—you seem to be robbing him. He goes away convinced that you are a stingy cheat."—New Orleans Times.
